Contemplated Change in President Grant's Cabinet.

Attorney General Hoar Will Tender His Resignation-British Intrigues in St. Domingo-Colored Voters in Ohio Asking Protection.

WASHINGTON, April 9, 1870. Rumored Cabinet Change—Attorney General Honr to Resign.

There is a rumor in prominent official circles to the effect that Attorney General Hoar has signified bis intention to retire from the Cabinet and that the President has agreed to accept his resignation. Prominent Pennsylvanians say that the President has assured Senator Cameron that Hoar's successor will be appointed from the Keystone State, as a setlittle State of New Jersey, which is one shead of Pennsylvania, having a member of the Cabinet as well as an Associate Justice on the Su-

Treaty-Fears of a Big Financial Job Un-

Secretary Fish was yesterday officially notified of intrigues said to be in progress on the part of certain individuals in reference to the Hartmont loan. It appears that Hartmont is now in New York with £150,000, sterling, a portion of the whole sum of £450,000 negotiated for very nearly a year since. The £150,000, sterling, were sent to St. Domingo, but were declined by President Baez, as Hartmont had neglected to comply with the terms of the contract. He also said that he had since made arrangements with the United States government. The sum agreed upon with Hartmont is much more than that stipulated for with the United States, but this Baez has rejected. All the English parties ask is the possession of the ports for twenty-five years, whereas the United States acquires absolute possession for a smaller figure. The official communications on the subject were produced. The action of Baez in reiusing the money when offered to him is thought to be good evidence that the alarms of those who oppose the treaty on the grounds of a big job are not very well founded. It is believed that if the United States refuse to take the island Baez will be compelled to yield to the necessity of accepting the offers of Hartmont. We will then not only have to hanl down the American flag, but will have a British protectorate under the very nose of the republic, in violation of traditional jealousy of foreign aggression on this hemisphere. The policy of the strengthen the nation in a mintary point of view the United States has gotten into negotiations for the island the British government has taken the subject up and will aid in the Hartmont loan quietly. The Navy Department received despatches to-day from Commander Traxton, of the United States steamer Jamestown, dated from Feejee Islands, The commander states that the inhabitants of the islands are anxious to establish an independent goverument, and come under the protection of th United States, but are airaid to make any move owing to the menacing attitude of the British authorities, who threaten to arrest all persons attempting anything of the kind. He assured them that the United States government would give them all their moral support in their efforts to estab hish an independent government.

Mr. Fish has had no such that a movement of the kind alluded to will be made at no distant day. Mr. Thornton is of this opinion, and has notified the Dominion authorities to be prepared. What took place at the interview to-day on both subjects has not leaked out.

Mr. Dawis, (rep.) of Mass., repeated the statement, with the remark that the whole amount was under \$4,000,000, less than any general deficiency bill for several years.

## THE METHODIST CONFERENCES.

New York Conference.
The New York Conference of the Methodist Episcopal Church met again yesterday morning. After the opening services Bishop Janes read a telegram from Professor Bannister, of the Garreville Biblical Institute of Evansville, Ind., announcing the death yesterday, at Beyrout, Syria, of Bishop Calvin Kingsyesterday, at Beyrout, Syria, of Bishop Calvin Kingsley, with whom he was travelling.

Appropriate eulogium was delivered by Bishop
Janes, after which the yearly examination of characters took place. At the suggestion of Rev. R.

Foster a subscription of \$125 was taken up for Rev.

S. R. Free, of Hartsville, Mass., who was robbed at
his hotel the previous evening of that amount.

To-morrow unfluished business will be attended
to, the appointments will be made and the session
will terminate.

New York East Conference. The fourth day's session of the New York East Conference began yesterday morning at the Seventh street Methodist Episcopal church, Bishop Ames

presiding. W. H. Boole, after which the Conference was called to order for business. A calegram was received from

w. H. Boole, after which the Conference was called to order for business. A felegram was received from Beyrout, Palestine, announcing the death of Bishop Kingsley. A committee was appointed to unite with the New York Conference and to take suitable action in reference to the matter.

The fifth disciplinary question was demanded. Who are the elected or ordained elders this year? The committee reported the following names, and they were elected to elders' orders:—Spencer H. Bray, George H. Anderson, Thomas N. Laine, W. H. Bray, George H. Anderson, Thomas N. Laine, W. H. Bray, George H. Anderson, Thomas N. Laine, W. H. H. Church, W. R. Webster, Jos. O. Munson and Edwin F. Hadley.

The next business was the debate on the question of lay delegation. The Rev. Dr. Wheden was the first speaker. He said he thought that the laity should be represented in the General Conference, because every one should take some part in the selection of those who should govern them. He thought a principle was required in the Church similar to that we already have in the nation, and that lay delegation would subtract nothing from the Church, but would add a new power. The Rev. Mr. Griswold also spoke in favor of lay delegation. The Rev. J. Searls was the next speaker in favor of lay delegation. He thought it was right and that at no distant day the women of the Church would demand a broader field for their lanors, and he would vote for that also. It was here moved that the vote should be taken without further debate, and for a few ments there was made excitement. The motion was taken without further debate, and for a few me ments there was much excitement. The motion was lost. Remarks were made by the Rev. Mr. Boole, the Rev. Dr. Crooks, the Rev. Mr. Taylor and others. A vote was then taken, with this result:—Aves, 101; nogs, 83. A three-courths vote being required the question was declared lost.

### SHOCKING TRAGEDY AT SEA.

Maniae Negro Murders a Fellow Seaman and Then Commits Suicide by Jumping

The particulars of a shocking double tragedy committed at sea reached this city yesterday by the arrival at this port of the brig Señorita, from Porto Rico. The statement as furnished by the ship's officers is substantially as follows:—

arrival at this port of the brig Schorits, from Porto Rico. The statement as furnished by the ship's officers is substantially as follows:—

The Schorita left Baltimore for West India ports on the 2d of December last. Among her crew were two men named William Howard (colored), who acted as cook, and John Morteller, an able-bodied scaman. The craft had a prosperous voyage. During the eutward trip the cook behaved in a very strange manner. He appeared reckiess and excited, file neglected his duties to such an extent that the captain threatened to discharge him upon reaching port. After discharging and taking on board a return cargo the Schorita touched at St. Thomas. Here the mate, John Fitchman, fell down into the hold and was instantly killed, a heavy box of paint striking him on the head. This accident appeared to have a marked effect upon Howard—so much, indeed, as to excite the apprehensions of the crew as to their personal safety. He told several or the men that their mates had blotted against their lives. When the vessel was about a week out, homeward bound, the cook entered the cabin of the captain, and after swearing him to secrecy, divulged the plans, as he asserted, of a conspiracy. He said the crew were prepared to mutiny. They intended to take possession of the vessel and to kill all who made any resistance. The captain listened to his story, but of course placed little confidence in t. On the morning of the 29th of March the captain was called on dock by the noise of a fearful struggle, but before he could make his appearance a bloody deed had been committed.

It seems that Howard was engaged in cutting wood for the purpose of making a fire in order to prepare breakiast, when suddenly and without a word of warning attacked Mortelier, who was at work near by. His weapon was a hatchet, with which he deen the unsuspecting man a fearful blow upon the head, burying the blage of the instrument deep into his skull. The captain reached the deck only in time to see the mannac, with animate body of his victim

Public appreciation of the distinguished services of the late Secretary of War, Edwin M. Stanton, and the honest discharge of his official duties, particularly during the war, when so many greatly en riched themselves, while he died poor, has been most happily and satisfactorily exemplified in the money contributed since his decease for the benefit of his family. The total sum already collected amounts to the handsome total of \$146,000, lacking only \$4,000 of the \$160,000 organally proposed to be raised. This amount has been contributed as followed.

Total \$146,000
Messrs, A. T. Stewart and Moses H. Grinnell, through whose individual efforts the sum contributed in this city was principally raised, had a conference yesterday as to the best investment to be made of the funds. It was finally determined to open a correspondence with the other cities making contributions to the fund, to see if the same, when it shall have reached \$160,000, cannot be disposed of in one investment, the most generally accepted proposition being to invest the whole in United States government securities. Meantine the money collected here is on deposit, drawing interest for the benefit of ldrs. Stanton and her children.

### THE FEFFET OF STRIKES.

At the Special Sessions yesterday, before Judges Ledwidth, Hogan and Bixby, two young men named John Nesbitt and Edward Dougherty were charged with an assault and battery upon Patrick Hemp. Mr. Spencer appeared for the prosecution and Mr. Hummel for the defence, Hemp was employed at the Excelsior Iron Works, 201 Centre street, and the assault arose out of the fact that Hemp had accepted employment at these works at a lower rate than the workmen hitherto employed at this place had fixed as the wages they thought the employers ought to give. He was grievously assaulted on the 25th of March, on his refusing to leave his employment, by these defendents. Hemp had been out of employment for six weeks, and to support himself, his wife and two destitute children he had consented to work at what he considered fair wages. He was so seriously assaulted that he has not been able to work since. Nesbitt was acquited and Dougherty was remanped until next Tuesday for sentence. Mr. Hummel for the defence. Hemp was em-

MISCELLANEOUS.

ALLCOCK POROUS PLASTER. Patronized by the Medical Men of all schools. Dr. Valentine Mott, Dr. Johnson, of Hartford, and Dr. Myers, of Savannah, have spoken of them in the highest

terms. The great Mott said :- "They were all that could be

hoped for in a plaster-simple, cleanly and adhesive; perfeet as artificial supporters of the muscles, and for pains, because of their mild counterritant qualities, usually at once giving case." Local weakness of the back, breast and side always benefitted, thus curing lumbago in a few bours, sometimes in a few minutes. Ask the Hon. Shepherd

Knapp; he will tell you what they can do. In serious heart and chest affections their use casses as absorption or evaporation of water, by which dropsy of the beart and hydro thorax have, undoubtedly, been cured.

A MEDICAL WONDER.
